

**AirPro** Limited  
Heating Cooling & Energy Conservation

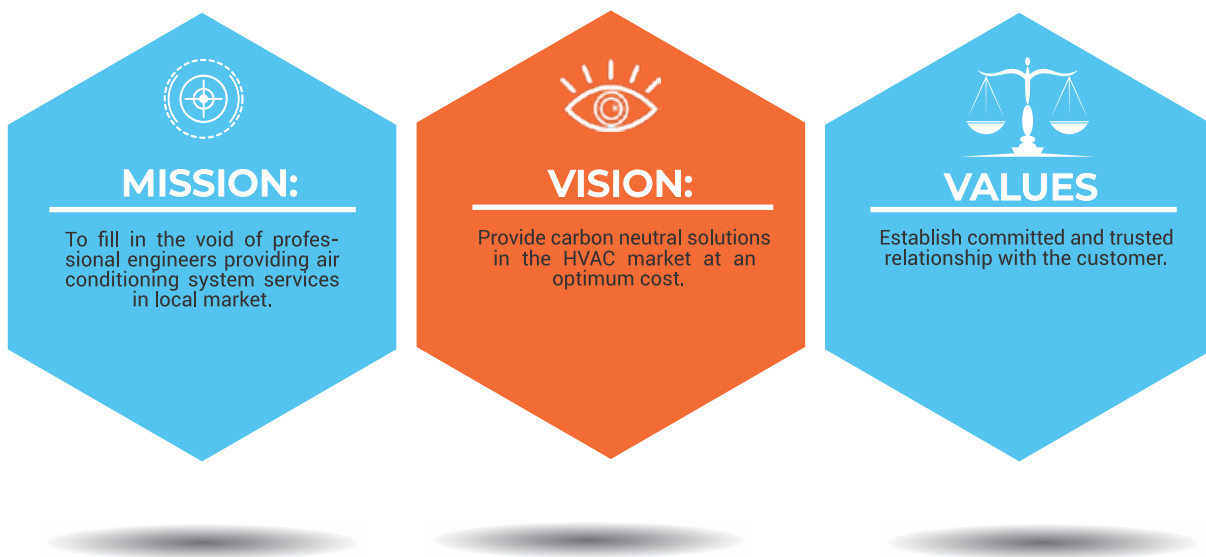

**AIRPRO LIMITED**

## About us

Purchasing a reliable brand of air conditioning for optimum performance and energy efficiency is a thing of the past. Meticulous considerations during design, installation and routine maintenance are pivotal factors in establishing an air conditioning system that protects the earth and economy of the owner. AirPro Limited, being the professional engineers in air conditioning business has this professional commitment to ensure energy efficiency along with commercial efficiency for the client. The management team of AirPro Limited is in the trade of building services for decades, stepping into the air conditioning business with the aim to fill in the void of professional engineers providing air conditioning system services in local market.

The Management Team of AirPro Limited with their previous design background has extensive experience in project management of different air conditioning system. AirPro Limited is specialized in central system with air and water-cooled chillers, magnetic bearing chillers, absorption chillers, VRF system and split air conditioning system.

## Our Services:

### VRF SYSTEM

- Mini VRF
- Cooling Only
- Heating & Cooling

### AIR PURIFICATION

- HEPA
- Activated Carbon Technology
- Ionizer
- Ozone Generated
- UV Technology.

### AUTOMATION & CONTROL

- Chiller Management
- Smart Control System

### CENTRAL AIR CONDITIONING

- Water Colled Chiller
- Air Colled Chiller
- Absorption Chiller
- Colling Tower
- AHU,FCU, Pump

### PACKAGE TYPE AC

- Package Heat Pumps
- Package Air Conditioners
- Package Gas/Electric Systems
- Dual-Fuel Systems

### VENTILATION SYSTEM

- Industrial Ventilation
- Force Ventilation
- Tunnel Ventilation
- Plant Room Ventilation

### ENGINEERING

- Food & Beverage
- Pharmaceuticals
- Textile & RMG
- Hospital
- Educational Institiute
- Commercial Building
- Reatil & Showroom
- Residensial, Apartment Villas
